Answer to the question no.1

Last digit of my ID is 4 hence my topic is Shishu Park.

Drop-shipping: It is a retail fulfillment method where the store doesn't keep the products it sells in stock. Instead, when a store sells a product, it purchases the item from a third party and has it shipped directly to the customer.

Ex: Shishu Park could partner with drop-shipping suppliers to offer branded merchandise such as baby clothes, toys, and accessories with the need to maintain a physical inventory.

Private label: Shishu Park could collaborate with manufacturers to create a line of private label baby products such as diapers, baby wipes, or with clothing with its brand name.
